**Subject:** Atlantic Coast Pipeline NC 401 Water Quality Certification

Please deny the application proposed by Duke Energy and Dominion Resources for the fracked natural gas pipeline. I am concerned about the economic and environmental impacts of this pipeline on North Carolina and its people. I am also concerned that the protections and safeguards for the pipeline are inadequate to protect our environment and our waters and air. We don't need more methane gases escaping into our atmosphere causing further accelerated climate change.

Regards,  
William Blaine
